EXPERIENCE

Mobile Apps Developer   Aug 2019 - Oct 2020

Scytalelabs, Lahore

I have worked as an android studio and react native blockchain based mobile apps developer. I have worked on these projects: UCPPortal, EMPBOSS, AnkushApp and ActivityDetectionApp.

Senior Blockchain Backend Developer   Nov 2020 - Present

Scytalelabs, Lahore

I am currently working as a senior blockchain backend developer. I have written and deployed casper smart contracts. I have also written casper smart contracts javascript clients to interact frontend and backend with the smart contracts. I have expertise in ExpressJs, NestJs, graphQL and Etheruem smart contracts integration at backend. I was the backend lead in these projects: ImexPlatform, RobotDrop, CasperSwap, CasperSwapInfo, BlockClient, CasperSwap EventListener, WiseSwap, WiseSwap EventListener, CurveSwap, CurveSwap EventListener, tradeX, Redswan Metarents and many more. I also have expertise in deploying backends on heroku, vercel and AWS. I have also handled event replay mechanism on AWS deployed backend apps.

SKILLS

Android Studio Apps Development, React Native Apps Development, NodeJs (ExpressJs and NestJs) Blockchain Backend Development, Casper Blockchain Smart Contracts Development and Deployments, JsClients Development for Casper Smart Contracts, Rust, Ethereum Smart Contracts Understanding and Deployments, Casper and Ethereum Smart Contracts Listener Development, Wallet Managements in Projects, Handled crypto payment in projects, Javascript, Java, C/C++, Typescript, Rust, MongoDB, GraphQL, Redis, Kafka, Socket.io, Event Streams, Microservices, Kubernetes, Swagger Documentation, API Unit and integration Testing with (Jest and mocha chai), AWS Deployments, Heroku Deployments and Vercel Deployments.

ACHIEVEMENTS

I got promoted to senior blockchain and backend developer. Then I got promoted to the managerial level.
